High Quality Alternatives in HC-CARGO

We offer a high quality guarantee with thorough testing carried out by our quality assurance department. Our engineers test the parts in terms of interaction, perfect fit and easy installation before the products are approved and released for sale. This procedure ensures that we keep the promised high quality.

You can easily find our recommendations - look for these Quality Stamps @ HC-CARGO

The 5 star icon will help you to make the right product choice. If you see the icon, the part is OE quality, i.e. the best quality on the market. If no icon appears, the part is aftermarket quality, i.e. the quality you are familiar with from HC-CARGO - tested at our own test facilities before launch. The HC-CARGO 5-star program contains products known in the automotive aftermarket as "original parts". The suppliers of these parts are OE manufacturers. You will find the entire HC-CARGO product portfolio available on our online shop.

Our Quality - Your assurance

Quality is key to us at HC-CARGO. Even though our manufacturer network develops the products, the HC-CARGO logo on the packaging stands for high quality standards.

To constantly ensure high quality, our processes follow strict regulations.

The HC-CARGO ordering and management processes are certified to DIN EN ISO 9001. Certified management processes are also something we expect and require from our suppliers.

They are all DIN EN ISO 9001 or TS 16949 certified.

Only when the product has passed all tests, it has proved to be an excellent HC-CARGO product and is then released. From the first delivery, random samples are taken and tested. When the test has been successful, the products are approved and released for sales.

*Thus, our
customers can
always rely on
our quality.*

Supplier release is an important foundation for what we really care about: our products. We have particularly high demands on the reliability of materials and components of our products, as reliability contributes to the overall HC-CARGO quality assurance. Reliability plays the most important role in HC-CARGO quality assurance.

Our quality standard applies also in terms of service, technical expertise and advice. Our dedicated employees are happy to assist you with know-how and experience in your daily business.
